

The Total Economic Impact™ Of Altium 365

Through five customer interviews and data aggregation, Forrester concluded that Altium 365 has the following three-year financial impact.

FINANCIAL SUMMARY

ROI

355%

Benefits PV

\$1.11M

Payback period

< 6 months

159 hours saved per designer from design cycle efficiencies in the first year

65% fewer designs require alternative component sourcing

15 hours saved per design annually from a more effective production cycle

VOICE OF THE CUSTOMER

“Now, we meet the documentation and process standards to qualify us to support new field requirements from a compliance standpoint. [Before using Altium 365], our design process was piecemeal. Now, we have a more cohesive process and revision controls to allow more transparency into our design process to meet the compliance standards and expand to markets such as medical or aerospace.”

PCB engineer, manufacturing (electrical equipment)

SUMMARY OF BENEFITS

Three-year risk-adjusted

Time savings from a more streamlined design cycle

\$142K

Time savings from a more effective manufacturing cycle

\$374K

Cost savings from increased procurement transparency

\$199K

Technology cost savings

\$398K
